

**SPEEDGLEAM**<sup>®</sup>  
Dust-control battery burnisher

- Produce consistent results on uneven floors with powerful motor and patented, free-floating head design
- Achieve superior gloss performance with best-in-class 2,000 rpm “on the floor” pad rotation and up to 45 lb / 20 kg pad pressure
- Improve indoor air quality with dust-control system standard!

**Built to be tough.  
Made to be easy.**

# Ultra high-speed, dust-control burnisher: SpeedGleam®

## Awesome gloss performance

- Patented free-floating head for excellent pad-to-floor contact, even on uneven surfaces
- 2,000 rpm “on the floor” pad rotation for superior gloss performance

## You choose how you want it

- SpeedGleam available in pad-assisted forward motion or, reduce fatigue even more, with self-propelled SpeedGleam Plus

## Improve environment and productivity

- Reduce airborne dust particles with standard dust-control system
- No need to dust mop after using the SpeedGleam!

## Clean easier, clean longer

- Height adjustable handle, simple controls, and up to 2.5 hours on a single charge!
- Charge just about anywhere with onboard battery charger

**Engineered by Tennant Company, the SpeedGleam is manufactured by the best – making it a smart, reliable choice for your no-nonsense cleaning needs.**
