T16 CUSTOMIZED STEEL FRONT BUMPER

Customer:

Indianapolis Indians

Issue:

The Indianapolis Indians needed a unique solution to complement their #1 ranked Triple-A baseball stadium.

Custom Solution:

Laser-cut steel front bumper for T16. *(Bumper comes in gray. Picture shows chrome-plating done locally by Service Technician)*

Benefits:

- Unique and customized solution that gives Tennant a competitive advantage when selling
- Fun way to represent some customers brand or company name prominently
- Symbol of pride for the facility to have their company branded on equipment

Results:

Customer was excited to be able to have their team's logo on the front of the equipment. It allowed them to have a fun with the machine and shows the pride they have for their nationally recognized facility and brand.

Price: \$674.00

Part Number:

326010: CS Guard, Front, W/Customer Logo [T16]. *For other machines, please inquire for feasibility, cost and timing details.*

"The city of Indianapolis and the Indians are proud to have the #1 rated Triple-A ballpark in America. The customer was excited to have their logo displayed in a hyped-up, cool way to back-up that ranking. I was happy we could do something unique for the customer and by calling Custom Solutions and asking, they made it happen."
