## ATLV® 4300 HOSE LIFT ASSIST AND LARGER FUEL TANK

New hand-controlled vac hose vertical lift assist and larger fuel tank now available to order on the ATLV 4300. Contact custom solutions.

### Customer Need/Benefits:

- **Vac Hose Vertical Lift Assist**

- Ideal for applications and customers who need to frequently pick-up rogue litter, clean fence lines, and reach debris while sitting in the operator station.
- The task is made easier by using an electric actuator on the hose arm assembly that helps to quickly raise and lower the vacuum hose.
- Controlled by the press of a button, the controls module located on the handle is adjustable and can be moved to a number of orientations for customized operation.
- Click here for [demo video](#).

- **Larger Fuel Tank (not pictured)**

- Customers who need longer range throughout a day's operation.
- 20% increase in fuel tank size.
- Estimated 1.9 gph run time – performance will vary.

### Pricing and Kit Information:

- Hand Controlled Vac Hose Vertical Lift Assist
  - Price: US \$2,130
  - Part Number: 326196
- Larger Fuel Tank
  - Price: US \$529
