

THE NEXT GENERATION OF ec-H2O™ HAS ARRIVED

Since 2008, ec-H2O technology has become the standard in **detergent-free floor cleaning**. Tennant now takes the **largest technological advancement** in cleaning and makes it better. Now clean more soils in more applications with **ec-H2O NanoClean**.

MORE POWER

ec-H2O NanoClean uses a smart on-board e-cell and applies 3 to 5 times more electric current to produce the detergent-free cleaning solution.

MORE BUBBLES

The additional electric current produces more microscopic bubbles including millions of tiny nanobubbles to promote the cleaning power of the solution making you less reliant on detergents.

BETTER RESULTS

This next generation solution offers the same great benefits of the first generation and now cleans better by cleaning more soils in more applications.*

REDUCE THE COST TO CLEAN

Take advantage of significant savings in chemical costs, labor savings through increased productivity, and more.

FACILITY IMAGE

Scrubbing with ec-H2O NanoClean effectively removes typical daily soils as well as more stubborn soils like food greases, road salt, and more without leaving chemical residue.*

HEALTH AND SAFETY

ec-H2O NanoClean is certified by the NFSI to improve floor traction and reduce the risk of slip and fall accidents. Additionally, NSF registration ensures the technology is safe to use in food and beverage handling environments.

SUSTAINABILITY

Utilizing ec-H2O NanoClean reduces the impact of cleaning operations on the environment in seven key categories according to a third-party study by EcoForm™.

**ec-H2O NanoClean technology is not suitable for all soils, including heavy concentrations of fats and oils. Depending on the type of soil, conventional chemical cleaners may be required.*

MORE INNOVATION

Tennant has produced a first-of-its-kind ec-H2O NanoClean™ water conditioning module that conditions and standardizes the water you put into the tank. This means that you can use ec-H2O NanoClean over a broad range of water conditions.

ec-H2O NanoClean IS AVAILABLE ON THESE SCRUBBER MODELS:

SPEED SCRUB 300

SPEED SCRUB 24"-32"

SPEED SCRUB RIDER
