

Squeegee Replacement Kit

Models: T300, T300e, Speed Scrub 300 and A300

ATTENTION: This new squeegee replacement kit is designed for the latest squeegee lift bracket design. If machine is equipped with the original squeegee lift bracket design, shown below, install the knurled drip trap knob (supplied with kit) as described.

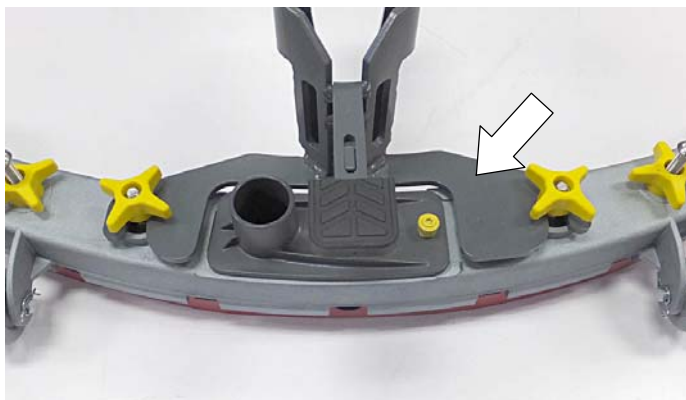

Original Squeegee Lift Bracket Design

Remove the large drip trap knob from squeegee frame and install the knurled knob on drip trap cover.

The knurled knob provides clearance for squeegee lift bracket engagement as shown below.

Latest Squeegee Lift Bracket Design

No action required. The latest squeegee lift bracket design provides clearance for the larger drip knob.

To update the original squeegee lift bracket to the latest design, order kit part number 9016194.
