Installation Instructions for Air Cleaner Element Replacement Kit 25979.

This kit contains a new air cleaner element for the gasoline powered TENNANT Model 140. Please follow the step-by-step directions.

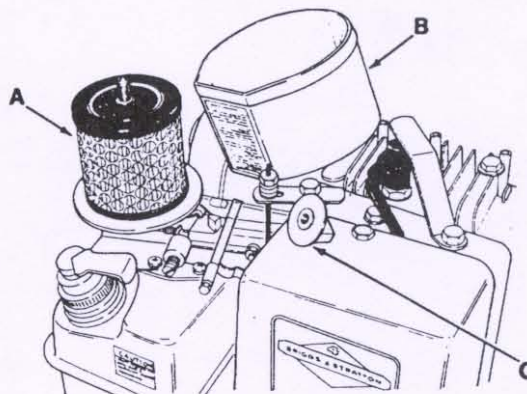

## PROCEDURE:

1. Park the machine on a level surface. Stop the engine and disconnect the spark plug wire.

**WARNING:** Always stop the engine and disconnect the spark plug wire before working on the machine to prevent creeping.

2. Remove the air filter cover. Remove the filter element and element top cap. Discard element and top cap.
4. Install the new element with the closed end (3/16" diameter hole) on top. See Fig. 1.

A. Air Filter Element  
B. Filter Cover  
C. Retention Nut
