

TECHNICAL SERVICE BULLETIN

**No.01800-022
Machine:800D
System:Engine
Cummins**

Model 800 Diesel machines equipped with a Cummins diesel engine.

DESCRIPTION: Tennant has built a small production line run of Model 800D machines equipped with the Cummins "B" series engine for a large customer. Some of these machines were on a lease program. The lease contract on some of these units have expired. These units are now coming into the service centers for reconditioning before resale. Follow the procedures below to order engine parts.

PARTS ORDERING PROCEDURE:

- 1. Be sure to document the engine serial number and specification numbers first.**
- 2. Tennant may only stock basic maintenance items like the engine oil filter, and air filter.**
- 3. Contact your local Cummins engine parts distributor for other engine parts. If you are not sure where your closest Cummins dealer is, contact Technical Support , or call Cummins at 1-800-DIESELS, (1-800-343-7357).**

FOR SAFETY:Before leaving or servicing machine, stop on level surface and set parking brake. Then turn off machine and remove key.
