

Technical Service Bulletin

MODEL(S) AFFECTED: **T7 and R14** – Models manufactured before serial number 10604586 (February 6, 2013).
T7 models manufactured in Europe before April, 2013.

SUBJECT: Potential forward/reverse directional switch malfunction. Due to possible carbon buildup on switch contacts, the reverse position of the switch may not function or function properly.

PURPOSE: If you experience the above condition, install switch part number 1072040. The new switch is designed to address carbon buildup. It is a direct replacement.

NOTES: **Warranty Information:** Standard warranty terms apply.

Forward/Reverse Directional Switch

Existing Switch
(p/n 1013763)

New Switch
(p/n 1072040)

To identify the difference between the existing switch and new switch, the new switch is marked with the new part number 1072040. The existing switch does not include a part number.
