

Superior dual-technology carpet cleaning from a single machine.

DELIVER BEAUTIFUL CARPETS IN MINUTES WITH READYSPACE.®

Carpets are clean, dry and ready for traffic in less than 30 minutes with ReadySpace technology.

DEEP CLEAN WITH UNMATCHED EXTRACTION TECHNOLOGY.

Remove even the most deeply-embedded dirt from carpets with powerful restorative extraction.

CREATE FRESHER, HEALTHIER ENVIRONMENTS.

ReadySpace technology uses 80% less water, and leaves behind up to 90% less water versus traditional extraction, helping to reduce mold growth and increasing environmental health and safety.

READYSPACE®

More than clean, it's ReadySpace®

Carpets are clean and dry in 30 minutes with ReadySpace®.

- Reopen carpeted areas sooner – eliminate unproductive, extended dry-times, and keep space available to guests and customers longer.
- Improve carpet appearances in high-traffic areas – remove soil before it becomes embedded, leaving carpets cleaner—and looking better.
- Minimize disruptions in locations with extended hours – with shorter dry times, you can clean on your schedule—anytime, all the time.

Increase environmental health, cleanliness and safety.

- Reduce bacteria growth – easily-accessible and fully-cleanable
- Hygenic® tanks elevate clean-out to sanitization.
- Helps inhibit mold growth – using 80% less water to clean, and leaving up to 90% less water behind, ReadySpace creates healthier spaces.
- Increase safety – with carpets drying faster, the risk of slip-and-fall when transitioning from just-cleaned carpet to hard floor is reduced.

Productively, effectively clean the largest carpeted spaces.

With a wide 710 mm cleaning path, a generous 120 liter solution tank, and a three-hour battery run time, the R14 with ReadySpace delivers unsurpassed continuous cleaning time.

TOP TEN FEATURES OF THE R14

1. **ReadySpace technology** – have clean, dry carpets in 30 minutes
2. **Deep-extraction technology** – remove the most deeply-embedded dirt
3. **Dual counter-rotating brushes/rollers** – lift and remove more dirt from both front and back of carpet fibers
4. **Patented vacuum shoe design** – get superior water recovery from maximum suction across entire cleaning path
5. **Simple technology switching** – quick, easy no-tool change-over
6. **Compact, maneuverable design** – easily clean hard to access spaces
7. **Superior ergonomics** – prevent operator fatigue
8. **Soft-touch control board** – quick training, easy operation
9. **Riding 710 mm cleaning path** – clean more carpet quicker
10. **120 L Hygenic® tanks** – reduce in-tank mold and bacteria
