

T500 BENEFIT MESSAGES

Reduce Costs to Clean

KEY DIFFERENTIATORS AGAINST COMPETITION:

1. Clean virtually any hard surface condition and maximize your return on investment with a wide range of cleaning options, including a 28 in/700 mm orbital head option.
2. Reduce costs to clean and maximize battery productivity with the exclusive patent-pending Smart-Fill™ technology, an on-board, virtually worry-free battery watering system.
3. Save time and money on battery maintenance and help increase battery performance with the patent-pending on-board Smart-Fill™ automatic battery watering system paired with IRIS® Asset Manager, which provides reporting on battery charging behaviors.
4. Reduce costs to clean, increase productivity and simplify operator training with the T500's suite of innovative technologies, such as ec-H2O NanoClean® technology, IRIS® Asset Manager, and Pro-Panel™ LCD touch screen with customizable Zone Settings™.
5. Effectively remove floor finish without expensive stripping chemicals with the 28 in/700 mm orbital cleaning head option.

SPECIFIC BENEFITS/FEATURES TO HELP CUSTOMERS SOLVE A PROBLEM:

1. Deliver predictable cleaning results with operator lock-out, on-demand tutorial videos and customizable zone settings with Pro-Panel™ technology.
2. Reduce daily use of floor cleaning chemicals with utilization of optional ec-H2O NanoClean® technology.
3. Quickly and easily clean recovery tank with optional on-board 53 psi spray nozzle and hose.
4. Reduce training costs with on-board machine instructions, supervisor lock-out and yellow touch points, which help prevent breakdowns and simplify machine maintenance.
5. Reduce costs to clean and maximize your return on investment with the T500 orbital scrubber's unmatched versatility for a wide variety of floor types and applications.
6. Reduce time spent trying to accurately fill the solution tank with auto-fill and water level monitor, which ensures the tank fills to capacity and shuts-off automatically.
7. Help reduce breakdowns and simplify preventative maintenance and training through yellow touch-points on common maintenance areas.
8. Improve cleaning performance and lower your labor costs with optimal down pressure and RPMs.

Maintain Health and Safety

KEY DIFFERENTIATORS AGAINST COMPETITION:

1. Reduce handling of daily cleaning chemicals with use of optional ec-H2O NanoClean® technology.
2. Virtually eliminate the need for caustic floor finish removal chemicals with the use of the orbital scrub head and surface prep pad, which allows for chemical-free floor finish removal.
3. Eliminate secondary cleaning operations that could increase slips and falls with optional ec-H2O NanoClean® technology and Severe Environment™ switch, which allows you to attack trouble areas on-demand.

SPECIFIC BENEFITS/FEATURES TO HELP CUSTOMERS SOLVE A PROBLEM:

1. Reduce risk of slips and falls with a redesigned squeegee that improves water pick-up, allows for easier installation of squeegee blades and prevents water from dripping on the floor after cleaning.
2. Optimize battery charging and prevent overheating and gassing with onboard charger fan and integrated battery venting.
3. Improved operator ergonomics through updated and enhanced controls that put propel switch and speed settings within easy reach.
4. Prevent safety issues related to overfilling batteries with Smart-Fill™ automatic battery watering, which fills batteries correctly every time.

Enhance Facility Image

KEY DIFFERENTIATORS AGAINST COMPETITION:

1. Evenly and effectively remove floor finish with one of the highest orbital standard down pressure settings at 170 lb/77 kg.
2. Validate cleaning, differentiate your operations and develop optimal cleaning program protocols with IRIS® Asset Manager's data driven reporting technology.
3. Trust in the orbital cleaning head's quality and durability with a 2,000 hour/3 year isolator warranty.
4. Reduce noise levels to as low as 62 dBA and allow for easy daytime cleaning without disruption with the Quiet-Mode™ low dBA setting.
5. Easily standardize cleaning operations with customizable Zone Settings™ on the Pro-Panel™ LCD touch screen.

SPECIFIC BENEFITS/FEATURES TO HELP CUSTOMERS SOLVE A PROBLEM:

1. Reduce noise levels to as low as 62 dBA and allow for easy daytime cleaning without disruption with the Quiet-Mode™ low dBA setting.
2. Reduce the risk of contact with dirty recovery water and decrease the need for secondary cleaning operations caused from spills with optional controlled recovery flow valve.

3. Easily standardize cleaning operations with customizable Zone Settings™ with labels on the Pro-Panel™ LCD touch screen.
4. Virtually eliminate water drips left behind after lifting the squeegee with an integrated P-trap and vacuum delay.

Minimize Environmental Impact

KEY DIFFERENTIATORS AGAINST COMPETITION:

1. Reduce the use of daily floor cleaning chemicals with optional detergent-free ec-H2O NanoClean® technology.
2. Ensure and validate compliance with sustainability initiatives and help realize projected chemical, packaging and water savings through IRIS® Asset Manager ec-H2O NanoClean® usage reporting.

SPECIFIC BENEFITS/FEATURES TO HELP CUSTOMERS SOLVE A PROBLEM:

1. Reduce use of daily floor cleaning chemicals with utilization of optional ec-H2O NanoClean® technology.
2. Virtually eliminate the need for caustic floor stripping chemicals with orbital scrubbing head and surface prep pad.
3. Reduce time spent trying to accurately fill the solution tank with auto-fill and water level monitor, which ensures the tank fills to capacity and shuts-off automatically.
4. Reduce the amount of water required to clean due to optimal down pressure, high RPMs and ec-H2O NanoClean® technology.
