

Compact Battery Rider Sweeper

- Overthrow sweeping system ensures consistent performance even with worn brushes
- Sweep indoors and outdoors, on hard floors and carpet for maximum versatility
- Reduce operator fatigue with slide-out hopper
- Increase productivity with one or two side brushes
- Robust construction resists strong impacts and increases machine life
- Quick & easy brush and filter change

The Tennant S12 is a very compact battery-powered rider sweeper with a sweeping path of 35 in / 900 mm. Due to its excellent maneuverability and retractable side brushes it can easily reach tight corners. The hopper pops out easily for quick emptying, brushes can be changed without tools and filter cleaning is a snap. Low effort steering for low operator fatigue. The front side brush and the 28 in / 700 mm main brush sweep up 3 ft³ / 85 L of litter and debris into its hopper. The S12 also utilizes a standard dust flap for picking-up bulky debris.

Wide variety of uses

The S12 rider sweeper is ideal for warehouse and distribution centers, parking areas, retail facilities, as well as contract cleaning.

Must have options and accessories

Optional add-ons include a left hand side brush for increased productivity and foam filled tires. Accessories for the S12 include batteries, brushes and chargers.

S12 COMPACT BATTERY RIDER SWEEPER
