

UPRIGHT VACUUM FAMILY

Dependable Performance. Exceptional Value.

Our new upright vacuum cleaners have been redesigned for greater ease of use and more reliable performance than ever. The vacuums deliver higher quality results – and lower total cost of ownership.

- **Simple** – Enhance productivity with user-friendly controls and design
- **Reliable** – Clean anytime, anywhere with healthy, proven performance
- **Affordable** – Achieve lower total cost of ownership with quality components and smart design that reduce common maintenance costs

SIMPLE. RELIABLE. AFFORDABLE.

A Vacuum Family Flexible Enough to Meet Your Unique Needs.

Tennant Company offers a complete line of Professional Grade upright vacuums to help you maintain clean, safe and attractive facilities.

- Regardless of your application, whether your environment is small with hard-to-reach areas, a large space, or somewhere in between, the vacuum line from Tennant Company has the solution to meet all of your floor care needs.
- These vacuums are ideal for healthcare, education, retail, office space and hospitality.
- Tennant Company vacuums are manufactured with reliable components that have been proven in commercial application for over five years. Durable components deliver reliable, worry-free operations and proven cleaning performance to help your program run at maximum uptime.

Proven Performance From a Leader

Tennant Company upright vacuums deliver reliable, worry-free operation to help maximize uptime for your cleaning program. They can help you maintain clean, safe and attractive facilities - not to mention your tightening budget. The advantages are significant:

- CRI certified to effectively remove soil, thus extending the life of your carpet.
- Standard HEPA filtration effectively traps fine particles that can trigger allergic reactions and asthma while keeping the product cost affordable.
- Major components have been proven in commercial applications for more than five years - and some greater than 10 years!
- Operating below 70 dBA, Tennant Company vacuums can be used to clean without disruption in noise-sensitive areas and are also LEED qualifying.
- Ergonomic designs improve operator comfort and provide greater ease of use, increasing productivity.
- Built for durability, means longer service life, lower parts and service expenses, and therefore lower total cost of ownership.

SIMPLE. RELIABLE. AFFORDABLE.

New Models. High Quality.

Tennant Company upright vacuums reflect our commitment to comprehensive floor care. They are designed for effective performance in a wide range of facilities – including healthcare, education, retail, office space and hospitality. Find the model that suits your needs best:

V-LWU-13B Battery-Powered Lightweight Upright

Weighing only eleven pounds (4.99 kg), this model has earned CRI Bronze certification. Clean for up to 50 minutes without the hassle of cords or having to find an outlet with this vacuum. It is ideal for small spaces or applications where the vacuum is lifted on and off carts, carried up and down stairs, or transported from building to building. Help keep those in your facility healthy and safe with standard HEPA filtration and a sound level as low as 70 dBA.

V-SMU-14 Single Motor Upright

This model is designed to minimize the most common maintenance and reliability issues – problems that frustrate operators and keep repair technicians busy. It also delivers CRI Silver certified performance and long-term durability for the most discerning buyers at a competitive, affordable price-point.

V-DMU-14 Dual Motor Upright

Virtually eliminating the top maintenance and reliability issues, this model features CRI Silver certification. This vacuum combines power and versatility – ideal for medium size areas that have both hard and soft floors, or areas that require detail cleaning.

V-WA-30 Wide Area

With a cleaning path 30 inches (76 cm) wide, this model offers productivity improvements over traditional upright vacuums. Large open spaces are ideal for this vacuum, as it will maximize the productivity benefits.
