

ENHANCED INSTA-FIT™ BRUSH ADAPTER AND WEAR INDICATOR

Tennant True® Brushes

The **Insta-Fit Brush Adapter** saves time and increases ease of installation through an enhanced self-aligning interface and brush wear indicator.

- The Insta-Fit adapter reduces installation time and effort over previous brush and pad driver designs and guides the brush or pad driver onto the machine with ease.¹
- Yellow touch points can be engaged by pulling out and pushing down to pre-load the spring for even easier installation of the brush or pad driver.²
- The new Insta-Fit Adapter is designed to require less force for brush and pad driver installation.
- The yellow brush wear indicator shows when to replace the brush, taking the guesswork out of brush maintenance and ensuring appropriate replacement intervals.
- New features provided at no additional cost.

Note: Pad drivers include the new adapter, but no brush wear indicator.
This affects machines T500 and larger only.

Facility Image

Remove the guess work from brush maintenance and keep your floors sparkling with a built in brush wear indicator.

Reduce Cost to Clean

Ensure appropriate replacement intervals of disk brushes to maximize cleaning performance and institute a consistent cleaning protocol.

Reduce time and effort required to replace or change brushes.

Increase confidence of proper installation with audible sound when brush is engaged.
